61                                              <option value="Food">Food</option>
```

3.WALLET PAGE & ADDING EXPENDITURES

The screenshot shows a Visual Studio Code editor window with the 'ExpenseTracker' project open. The Explorer sidebar on the left lists the project structure, including files like 'addmoney.html', 'base.html', 'charts.html', 'expense_edit.html', 'index.html', 'info.html', 'login.html', 'output.html', 'password_reset_do...', 'password_reset_for...', 'profile_edit.html', 'profile.html', 'register.html', 'reset_password_se...', 'reset_password.html', 'stats.html', 'tables.html', 'weekly.html', and 'base1.html'. The main editor area displays the content of 'addmoney.html', which is an HTML form for adding expenses. The form includes a select dropdown for 'Category' with options: Food, Travel, Shopping, Necessities, Entertainment, and Others. Below the dropdown is a submit button. The code is as follows:

```
59     Select category-<br>
60     <select class="Category" name="Category" required><br>
61     <option value="Food">Food</option>
62     <option value="Travel">Travel</option>
63     <option value="Shopping">shopping</option>
64     <option value="Necessities">Necessities</option>
65     <option value="Entertainment">Entertainment</option>
66     <option value="Others">Others</option>
67 </select><br>
68 </div>
69 </div>
70 </div>
71 <div class="btn">
72 <button type="submit" class="b2" href="/addmoney"> Submit </button>
73 </div>
74 <!--<input type="button" class="b2" onclick="location.href='/addmoney'" value="submit!"-->
75 </form>
76
77 </div>
78 </div>
79 </div>
80 </div>
81 </div>
82 </div>
83 </div>
84 </main>
85 </div>
86 </div>
87 </div>
88 </body>
89 </html>
```

The status bar at the bottom indicates the current position is Line 89, Column 8, with a tab size of 4, UTF-8 encoding, and CRLF line endings. The system tray shows the date and time as 15-11-2022, 12:07.
